Actionee HAIS

Sub Category

Subject Scenario descriptions are incomplete

Description of Problem or Suggestion:

In general, there is only one scenario associated with each major service. This is inadequate to describe the scope of the service. Scenario descriptions should at a minimum describe all major event flows associated with a service, and address all object classes identified in the associated object model.

Originator's Recommendation

Identify a complete set of key event flows and provide a description of each in the associated scenario section.

HAIS Response Date 5/28/95

Concur, an updated set of scenarios will be provided by CDR. Hughes has conducted an Operations Concept Workshop which included the presentation of a pre-agreed set of scenarios that will be incorporated into DID 605 which will be delivered according to the CDR CDRL schedule. Comments resulting from the workshop will be incorporated into the scenarios prior to their inclusion in the DID.
